

PATHWAYS NEWS

September / October

A note from the teacher:

Happy Fall!

We have had an amazing start to the Pathways school year! Students are already working on projects, interviewing professionals, and identifying areas of interest. Students have gone to Phase II, Inland Power, Country Touch Floral, the Post Office, Wheatland Repair, Repair Masters, the Court House, Katz Realty, 3C Creations, and more. They have made great connections! There are already 6 people with full-time internships! We look forward to connecting students with more professionals. Mrs. Hargrave

Upcoming events:

- Oct. 24 College Fair (Jr. and Sr. only)
- Oct. 27 Pastries with Professionals
- Oct. 31 Halloween Party
- Nov. 8 Annual SCC and SFCC for some students

Looking ahead:

MONDAY	Budgeting/Career exploration, math, individual and group projects
TUESDAY	Get out with experts!
WEDNESDAY	Healthy and Unhealthy relationship characteristics, math, individual and group projects
THURSDAY	Get out with experts!
FRIDAY	Current world events, math, individual and group projects

Stay in touch :

Please allow for 24 hours for a response.

Spotlight Project

Jackson G.'s project is to grow several types of plants--lettuce, basil, and strawberries--in a hydroponic system. The plan is to also grow these foods and herbs using the traditional soil method. Jackson plans to compare and contrast these two projects and then submit the findings in the FFA Agriscience competition. IT work and forming an Esports club are also on Jackson's project list.

Other projects in the works:

Studying for EMT exam, food preparation, podcasts, woodworking, engine work, research topics, creating a bill for improving mental health access to school age students, creative writing, entrepreneurship, and cosmetology.

People have asked how they can help in Pathways. If you have a recipe that you would be willing to teach the class, that is a great way! If you would like to participate in Pastries with Professionals, Carmelyn can get you on the list for that too. We have several students who may need assistance with long-term internships. If you have connections with someone in the field, that is also a way to help! I will put out interests in the next newsletter.

Reminder:

School starts at 8:45. Tuesday through Friday the classroom opens at 8am for bus riders/out of towners, unless otherwise arranged. There are several students coming in just to hang-out off campus or outside the building. That is not an option because of supervision. If they come to the classroom early, they must get started on their day. On Mondays the classroom opens at 8:45.

Exhibitions will be November 13-17th. Students will bring home their exhibition date and times mid-October. We want parents or guardians here for learning what your student is (and is not) doing in the classroom! This first exhibition helps direct the rest of the year.

Stock your students with: Hot cocoa, tea, coffee, creamer, granola bars, fruit snacks, top ramen, etc.

Donations for projects: yarn, fabric, scrap lumber, and old lawn mowers (unlikely to be returned).

Resources your students are using:

Mediabiasfactcheck.com
Delta Math
Healthy and Unhealthy Relationship Characteristics at JoinOneLove.org
BLS.gov for career research
